

Health, Safety and Environment Commitment

Wison Engineering Services Co. Ltd. ("Wison Engineering" or "We") always believes that humans and the natural environment are the most valuable resources in the world. In Wison Engineering, HSE is the core value. We are committed to the idea of never compromising on safety. We believe that all accidents relevant to work can be prevented. Our HSE objectives are, no accidents, no harm to people's health and no damage to the environment.

As a creator of prosperous and comfortable lives, we earnestly implement corporate social responsibility. We provide perfect Engineering, Procurement and Construction services in industrial field.

Herein, we promise that we will:

- Maintain high HSE standards no matter where we are, and consistently comply with applicable laws, regulations and standards of the country.
- Implement HSE management system, integrate it in all business processes.
- Everyone has responsibility on HSE and is empowered to intervene and stop any unsafe actions.
- Conduct effective training program to improve employees' HSE awareness, establish and promote an excellent corporate HSE culture.
- Provide sufficient HSE resources to achieve our HSE objectives.
- Plan and design all business activities, products and services carefully to minimize adverse environmental impacts, and do our best to reduce resources consumption, maximize resources recycling and avoid environmental pollution.
- Incorporate HSE performances in the assessment system. Recognize and reward those who contribute to the improvement of HSE performances.
- Openly communicate HSE issues and performance to the public. Consult and respond to clients and relevant interested parties, continually improve our HSE management system and performances.
